*Signature	* Authority to process and retain Credit Card details	

OFFICE USE ONLY: (MDSA INITIAL & DATE)

ONLINE ORDER REFERENCE. NO. #		RN			
MDS REF No. # (Office use only)	SAMPLE DETAILS BREED/ SPECIES	ANIMAL ID (Name/ Ring No.)	TEST CODE	CERT. ✓	SAMPLE TYPE (Refer to Key)

MDS POLICY: Unidentified samples will not be tested. When multiple sample types are submitted for testing, clients will be charged for each test performed per sample type. Payment and/or proof of payment is required with submitted samples or before release of results.

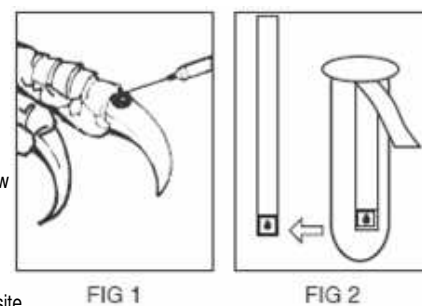

To meet regulatory requirements, samples submitted **MUST BE** imprinted on FTA card or collected using an MDS Sample Collection Kit. Storage of FTA card kit at room temperature.

AVIAN TESTS (Avian DNA Cocktails see price flyer)	TEST CODE	* RECOMMENDED SAMPLE TYPE
AVIAN BORNAVIRUS	PDD	BF/ EDTA/ MDS/ T
AVIAN DNA SEXING	AS	MDS/ EDTA
AVIAN POLYOMA VIRUS	APV	MDS/ CS/ EDTA/ T
CHLAMYDIAEAE SPECIES	CP	MDS/ CS/ EDTA/T
PACHECOS DISEASE VIRUS	PDV	MDS/CS/ EDTA/T
PIGEON CIRCOVIRUS	PCIRC	MDS/ CS/ EDTA/ F/ T
PSITTACINE BEAK AND FEATHER DISEASE VIRUS	PBFDV	MDS/ BF/ EDTA

SAMPLE TYPE KEY AND RECOMMENDED STORAGE UNTIL IMPRINT ONTO FTA		
SAMPLE TYPE	CODE	STORAGE
BLOOD FEATHER	BF	ROOM TEMP
CLOACAL SWAB	CS	O/N at 2-8 °C
MDS SAMPLE COLLECTION KIT	MDS	ROOM TEMP
TISSUE	T	O/N at 2-8 °C
EDTA WHOLE BLOOD	EDTA	O/N at 2-8 °C
FAECES OR FAECAL SWAB	F	O/N at 2-8 °C

Sample Collection with the MDS kit:

- Hold the bird comfortably so that you can access the bird’s toe.
- Remove the new sterile needle and prick the bird’s toe just above the claw, not the claw itself. After a few seconds a visible drop of blood should appear (Fig. 1).
- Open the lid of the small tube and remove the strip of white specimen collection paper (always hold the part that is sticking out of the tube).
- Press the marked tip of the paper against the fresh drop of blood to collect the sample. An ideal sample would fill the area below the marked line at the bottom of the paper. Too little sample may result in insufficient DNA to obtain a result.
- Insert the paper into the tube, with blood first. Never touch the marked tip with your fingers! Close the tube firmly (Fig. 2). Once on the paper & secured in the tube, the blood sample is stable for several months. Please discard needle / lancet safely – do not return to MDSA.
- Write the bird’s name and ring number on the tube’s label; fill in the request form or log your sample onto our secure online vetsite (<http://vetsite.mdsafrica.net>). If you are unable to print your test request, please send the RN number with your submission to link your samples to your order.
- Place the tubes and completed request form/ order confirmation email and payment/ proof of payment into an addressed padded envelope. Attach the ‘return address label’ provided. Post to MDSAustralia (Pty) PO Box 2206 Queanbeyan NSW 2620.

To imprint onto FTA card:

- Impress the sample onto the demarcated tip of the paper strip (FTA) of the MDS Sample Collection kit, ensure enough sample has been transferred.

Comments

The reported test result/s shall relate only to the specific samples submitted. Each test done by MDS is internally controlled to validate the testing process and the collected sample. However, this mechanism does not allow us to validate ‘pooled’ samples. We, therefore, discourage ‘pooling’ of samples i.e. placing two or more birds’ blood spots on the same testing paper in the one tube.

Disclaimer

In the event that Molecular Diagnostic Services Australia (Pty) Ltd (MDSA) returns a verifiable erroneous result for a particular sample, or if negligence is proven on the part of MDSA, any claim against MDSA is limited to the amount paid or to be paid to perform the test in question. In no event shall MDSA be liable for direct, indirect, incidental, consequential, special or other damages of any nature even if MDSA has been advised of the possibility of such damage.

Needles are inherently dangerous and because this product is used outside of our control, MDSA will NOT be liable for any damages or injury caused by needles, the user accepting full responsibility for the use and safe disposal of the needles, which are entirely at the user’s risk.

We realize the importance of confidentiality in the service we provide and undertake to abide by our Privacy Policy. For further information about our Privacy Policy, please contact our office or visit our website www.mdsaaustralia.net
